

ODYSSEY®

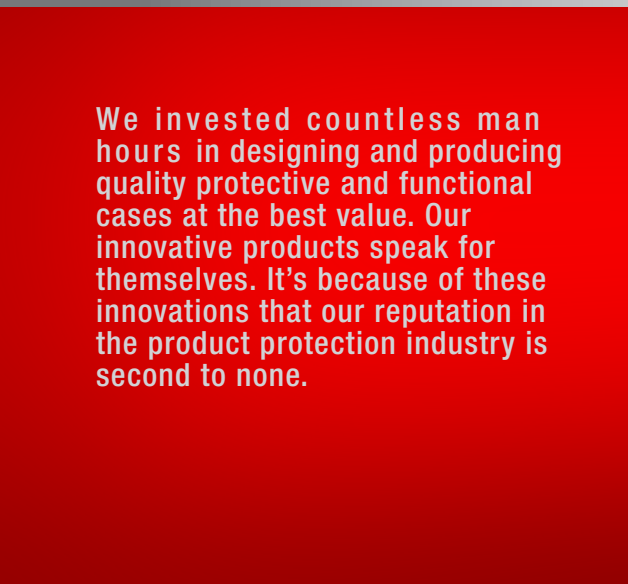

Odyssey has been leading the **PRO Audio** and **PRO DJ** industry through innovation for over 23 years. How time flies when you are having fun doing what you love.

We are proud to have brought many firsts to our industry over the years including numerous patented designs such as our **Edge Guard™**, **Glide Style™**, and **Slide Style™** cases as well as our **Black Label™** series cases that give the DJ a more slick and classy look at any gig, and our **Flight FX™** LED series cases that, with their light up panel effects, are perfect for DJs who love to be the center of attention.

Here are just some examples of original designed cases and accessories that we first brought to the DJ market:

Universal DJ cases • Adjustable case-clamping/tabletop Laptop stands • Truss tables with adjustable tabletops • LED back lit compact DJ keyboards • Original Slide Style carpeted and flight cases • original DJ bags • Thermal-lined record/utility bags • Transparent record/utility cases • DJ Facades with dual layered scrim for more even light dispersion • Original space saving Light Columns • The original “DJ” chair • Decorative Face Plates for media players • Red-lined interior DJ bags • DIY racks • LED rack lights • full width glide and dual tier DJ Coffin gear platforms • easy removable V-cut DJ case liftoff doors • low profile compact DJ controller cases • Adjustable 19” rack mount space DJ controller cases • cases with side tables • tripod stands with locking casters for easy speaker positioning • modular DJ trussing systems • and many more...

We invested countless man hours in designing and producing quality protective and functional cases at the best value. Our innovative products speak for themselves. It's because of these innovations that our reputation in the product protection industry is second to none.

Most importantly, we value your input and feedback. We sincerely thank you for your continued support. It is what has made us who we are today.

What's in the future? We are committed to continuing our mission statement, **“Leading Through Innovation”**. As from the beginning, providing protective and innovative accessory products for your livelihood is our business and we will continue to do so for years to come.

WITH THESE
NEW COMPACT CONTOUR
CONTROLLER
BAGS**

STREAMLINE™

THE NEW STANDARD IN DJ GEAR PROTECTION

The perfect bags for mobile dj's on the go. Features embossed corners and a 2" thick eggshell foam padded interior to protect your controller and other essentials from vibrations and shock.

The extra spacious dual foam interior is great for your essential compact accessories such as laptops, tablets, power supplies, hard drives, cables, folding laptop stands, microphones and more. *

Custom interior foam is available as shown in the photo above.

*For the safety of your equipment, proper protective cases/pouches for each individual gear (laptops, tablets, folding laptop/gear stands, power sources and cables, etc. are required when transporting them together within the same compartment. Stay within the molded bag's capacity to ensure the best protection for your gear.

INVENTORS OF THE EXTRAORDINARY

Flight FX™ Series cases have one to two color-changing multi-mode LED panels embedded into their lower exterior side walls. In addition, they are constructed with the same anodized and powder coated black hardware as our Flight Zone® Black Label™ cases which complement the visual aura of the glowing panel(s). Each Flight FX™ Series case can be synchronized to another and linked up for dazzling multiple case setups. The DJ becomes the center stage at any gig behind these cases. Innovating? Of Course!

GLIDE STYLE™ CDJ COFFINS

As the evolution of the DJ continues, so do the designs of Odyssey DJ coffins. Introducing the BLACK LABEL™ REMIXER™ GLIDE STYLE™ SERIES DJ coffins featuring a full width glide platform to place all your DJ remix gear. With digital vinyl software such as Serato and Traktor Scratch more DJs have gone through the transition from beat mixing to full on remixer producer. Availability of so many affordable remixing tools to the DJ, such as midi keyboards and controllers to laptops and iPads, have grown to an ultimate high and Odyssey is there in the middle of it all providing these DJs the most functional DJ coffins yet with the REMIXER™ GLIDE STYLE™ SERIES. Standard color Flight Zone® cases are also available.

Large format CD/Digital DJ Coffins fit players such as:

Remixer™ FULL WIDTH GLIDE STYLE™ DJ COFFINS

As the evolution of the DJ continues, so do the designs of Odyssey DJ coffins. Introducing the REMIXER™ GLIDE STYLE™ SERIES DJ coffins featuring a full width glide platform to place all your DJ remix gear. With digital vinyl software such as Serato and Traktor Scratch, more DJs have gone through the transition from beat mixer to full on remixer producer. Availability of so many affordable remixing tools to the DJ, such as midi keyboards and controllers to laptops and iPads, has grown to an ultimate high and Odyssey is there in the middle of it all providing DJs the most functional DJ coffins yet with the REMIXER™ GLIDE STYLE™ SERIES. Also available in Black Label™ Series.

THE ORIGINAL GLIDE STYLE™ COMBO RACKS

Our Glide Style™ Combos feature our patented sliding laptop platform above a 19" slanted rack mount section. At your gig, set your laptop on the carpeted surface, plug in and you're ready to go. Slide it forward to use your laptop. Slide it back to use the mixer section underneath. Keep your laptop close and safe on a sturdy new Glide Style™ Combo case.

FZGS1004

FZWIRELESS

Our Flight Zone® series wireless mic case features a fully diced foam interior so you can tailor the inside to fit your wireless mic gear. Because the interior is diced foam, this case can be used for other gear as well!

MICROPHONE CASES

The Flight Zone® series FZSHQLXD1 wireless mic case is specifically made to fit the Shure Wireless Mic Bodypack Transmitter system with custom fit foam drop spaces to hold everything you need in perfect place in storage or transport. Features include key locking latches, an egg foam lined interior lid, sturdy briefcase style carrying handle, and rubber feet.

FZSHQLXD1

FZMIC12

Our FZMIC microphone cases feature a foam interior, recessed butterfly latch w/padlock loop, recessed handle, and sturdy ball corners. They hold a maximum of either 12 or 18 microphones and have a lockable interior cable compartment.

Ext. Dims: (2) Top 21" x 18" x 16"
 (1) Bottom 32" x 22.5" x 21"

Use these truck packs for a fast and efficient use of space. They're great for easy loading in and out of venues. Each features recessed hardware, spring-loaded handles and include 3 inch casters, two of which have super stop brakes.

Flight Ready Series:

MODEL	DIMENSIONS	INT. DIMENSIONS	WEIGHT
FRTP020W	22" x 29.34" x 22"	20" x 20" x 20"	46 lbs.

UTILITY TRUNK CASES

These big boys can hold a ton of gear and keep it all organized to boot! Both cases feature 3.5" heavy-duty casters, 2 with brakes, and can hold gear up to 42" x 27" x 23" deep (26" from floor to top lid). The FZUT2W comes well-equipped with 7 dividers (2 tall, and 5 flush) with one small and one large tray that sits on top of the flush dividers. Use any combination of trays and dividers to keep all your gear safe during transport. The FZUT2W-EMPTY version comes without trays and dividers.

Removable dividers

FZUT2W

Made to truck pack dims!

FZUT2W-EMPTY

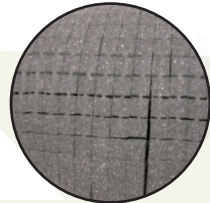

Flight Zone Series:

MODEL	DIMENSIONS	INT. DIMENSIONS	WEIGHT
FZUT2W	44.75" x 31" x 29.5"	42" x 23" x 27" (includes trays and dividers)	166 lbs.
FZUT2W-EMPTY	44.75" x 31" x 29.5"	42" x 23" x 27"	120 lbs.

PLUCK FOAM UTILITY CASES

FZWIRELESS

Pre-cut diced foam

FZLUC

FZUC

Protect your valuable digital recorders, samplers, drum machines, controllers and other tabletop gear with our Utility Carrying Cases. These cases come with pre-cut, diced foam so it's easy to make the foam interior match the shape of just about anything you put inside! The FZUC (small Utility Case) and FZWIRELESS (Wireless System Case) cases come with a lockable luggage type clasp and non-removable hinged lid that stays open and upright by itself. The larger FZLUC (Large Utility Case) and FZDRC (Digital Recorder Case) feature heavy-duty butterfly latches with padlock slots and removable hinged lids.

Flight Zone Series:

MODEL	DIMENSIONS	WEIGHT
FZUC	15" x 6.5" x 13"	5 lbs.
FZDRC	24.75" x 10" x 20.375"	19 lbs.
FZLUC	23.5" x 6.75" x 11.75"	9 lbs.
FZWIRELESS	19" x 4.75" x 18"	11 lbs.

D.I.Y. Diced Foam:

Trace your gear on a sheet of paper

Cut out the pattern. Cut inside the lines for a tighter fit.

Put pattern in desired position and pull foam apart

Test fit and pull more foam as needed

FZDRC

NEED CUSTOM U.S. MADE CASES? WE'RE YOUR ANSWER!

ODYSSEY CADILLAC ROAD CASES

Our industry standard road case AKA "Cadillac" are made to carry heavy loads. Truck pack sized cases, recessed hardware birch ply walls, painted or optional Line-X Tuff Kote™ exterior coating, stack ability and heavy weight casters are what we do. Every gig is different, we also offer heavy duty removable dividers for your cases to be as flexible as the work you do. Added Muscle includes 2" x 4" super duty casters that feel like the case is cruising on its own! Our design specialists will work with you to meet the challenges you face everyday.

ODYSSEY LIGHTING CASES

You're different. You have unique challenges. Your combination of lighting gear is complicated. Your load in just takes too long... Let us work with you to create an engineered case system that will travel in your vehicles, roll into your venues, and store in your shop all with the right footprint. Storage space is \$\$\$, we get it. At BC Cases, you know we use the right stuff to build cases that last. Add some "smart muscle" to your business and let us work with you to design the lighting cases that will get your job done, on time, no matter where it is!

Our custom cases are built in Los Angeles, California, USA. This gives us the unique ability to work directly with manufacturers to build the strongest and best fitting cases in the industry. Whether the lights you choose are built in the USA or elsewhere, they come through L.A. and our design specialists are here to design the best protection for your prcucious investment!

MOTOR CASES

All of the "Rock Solid" features that have made our ATA Trunks a top seller for over 45 years go into our Motor and Chain Hoist cases. Recessed hardware, multi-ply walls, stack-ability and heavyweight casters. BC Cases are made here in the USA with proven designs and technology. Our design specialists work with the manufacturers to ensure a proper fit. It takes Powerful Stuff to load in a light show, and BC Cases is all in for the life of your gear.

ODYSSEY WORKBOXES

Years ago, the workboxes we designed were used primarily for military applications. They needed to withstand the harshest of conditions and impossible obstacles. They've stood the test of time for over 45 years! In the case industry, design means everything. We use the best drawer glides, table legs & latching hardware and casters.

We'll work with you to ensure that what we build is precisely what you need, and more!

ODYSSEY DRAWER CASES

When your gear is on the road, organization is critical to eliminating loss, and keeping work time to a minimum. There isn't time to dig through piles and large spaces to find things that costs you money.

Let us create specific foam drawer inserts that remind you "Hey! Where's the widget that goes here, did you forget?" Ask us about our custom silk screening and stenciling features. Don't forget we can match your company "look" with custom colors and printed silkscreen logos.

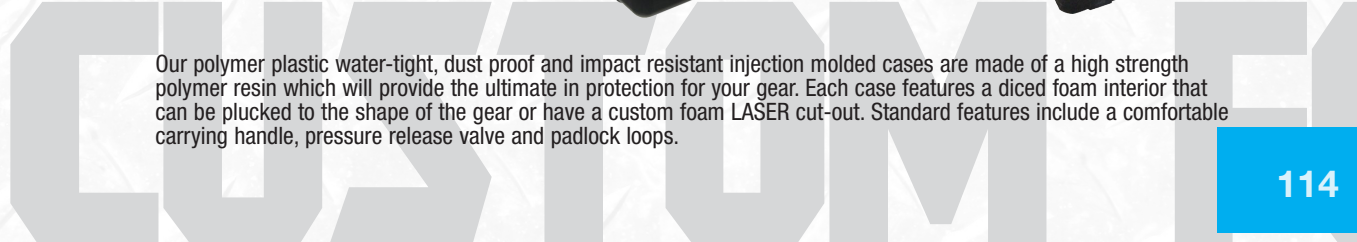

CUSTOM FOAM INSERTS

We also specialize in custom fitting your foam inserts to fit your products perfect and precise, keeping your important equipment safely shielded and protected.

Mic Inserts, Foam Inserts, Single, Dual all available upon custom build request. Give us a call for more information.

Our polymer plastic water-tight, dust proof and impact resistant injection molded cases are made of a high strength polymer resin which will provide the ultimate in protection for your gear. Each case features a diced foam interior that can be plucked to the shape of the gear or have a custom foam LASER cut-out. Standard features include a comfortable carrying handle, pressure release valve and padlock loops.

KROM™ CASES - BLACK KROM™ SERIES

BLACK KROM™

Our Black KROM™ series cases are designed for the DJ who wants something that looks super slick and doesn't really need a flight case to travel with his gear. Great for light-duty use, this series is built with all black powder coated hardware, stealth black laminate, and steel corners that are uniquely hexagon-shaped. The DJ mixer and CD/media player carrying cases have a fully foamed-lined interior with a velvet-lined bottom which includes an open pit under the gear that allows for ventilation and storage space for cables and other essentials. The interiors of the universal DJ controller cases are fully carpeted as well as foamed-lined ensuring secure transport for a diverse variety of today's popular DJ controllers. Each of the controller cases also include lift out trays to place your gear on inside as well as outside your case.

ODYSSEY®

LEADING THROUGH INNOVATION

HOT! DJ CASES FOR TODAY'S HOTTEST DJ GEAR

BRLDIGITAL3XL

The Redline™ Digital 3XL bag lets you take a wide variety of your essential gear for your digital set up from one gig to the next. The main compartment includes foam inserts that can easily be adjusted to safely store the popular Pioneer DDJ-RZ, DDJ-SZ, MCX8000, XDJ-RX or other similar sized gear while in the second section store 2 laptops side by side or an accessory of comparable size (such as our LSTAND360 folding laptop stand). There's even a smaller dedicated pocket for tablets. The front compartment includes cable straps and padded pockets that can be used for smaller more compact gear such as hard drives, power adapters, and microphones.

REDLINE™ SERIES BAGS

DIGITAL GEAR BACKPACKS

REDLINE™

BR516	5U	22" x 10.5" x 18"	15"	23 lbs.

BR412

Our unique rack bags allow you to remove the interior hard shell from the padded bag so you can stack racks firmly on top of each other without the bag getting in the way! All rack bags include a shoulder strap along with a small bag of rack screws and washers.

The black carpet covered interior shell is studio furniture friendly - no rubber feet or metal edges to damage or mark surfaces.

Odyssey rack bags allow for both front and rear access without removing the interior shell.

DOLLY PLATES

Our rugged dolly plates feature heavy-duty casters and two super stop brakes. Save your back and roll into your next gig with ease.

LTBXS2MTCPWHT

This integrated goose neck easily attaches in seconds and adjusts to the perfect angle for mic positioning.

Combo pack includes:
(1) X-Stand, (1) mic boom, and (1) laptop tray.

All measurements are approximate. Gear are not included. Designs are subjected to change without notice.

X STAND

The Strongest DJ X STAND in the industry!

Exclusive 10 way adjustable twin bracing design for added strength.

Anti-slip rubber padding helps keep gear in place.

EXCLUSIVE FEATURES

- Designed to support DJ Coffins
- Solid twin steel bracing with extra deep support bars to support larger gear
- Extra deep base for added stability
- Anti-slip rubber pads
- 200 lbs. maximum load (evenly distributed)
- Folded Dims: 15" x 10.25" x 2.75"
- Weight: 20 lbs.

X STAND "TWO"

FEATURES 1" TUBES FOR EXTRA STRONG SUPPORT

The LTBXS2 (X-Stand 2) is versatile and compact, folding into a space smaller than most guitar cases. Each tier allows independent height and width adjustment for holding keyboards, DJ Coffins, CD controllers and even laptops.

Adjustable top tier
width: 22.75-42.50"
height: 14-19.25"
depth: 18.50-21.50"

Other Specs
• 12.5-37.25"W x 18.75-38.2"H x 22.5"D
• Weight: 23 lbs.

Folded Dimensions with top tier
width: 23.50"
height: 59.50"
depth: 3.75"

Folded Dimensions without top tier
width: 23.50"
height: 41"
depth: 3.75"

TRUSS TABLES

ATT

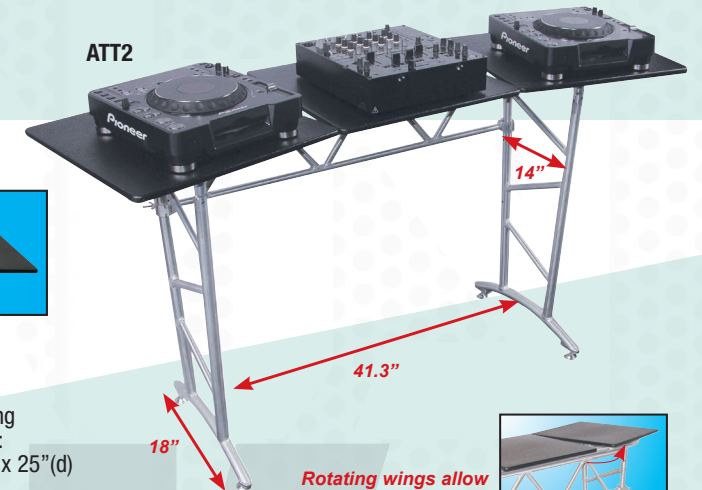

Our sleek looking DJ Truss tables add that professional studio look to any room. Each are made of high grade aluminum giving them that cool "truss" look. A definite must have for clubs, restaurants or your studio. Features adjustable leveling feet to minimize any rocking or swaying.

FOLD DOWN AND GO IN SECONDS!

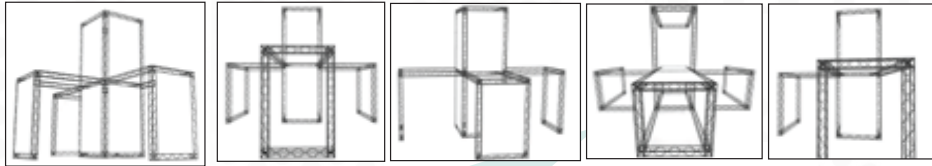

ATT2

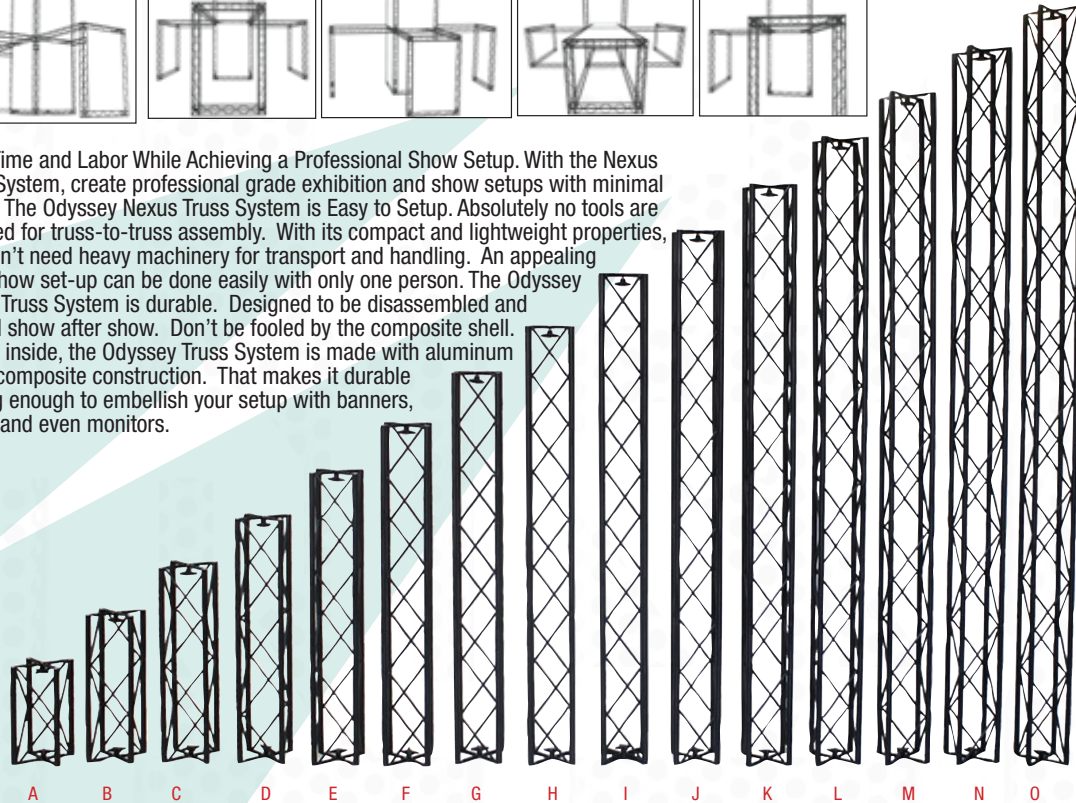

The ATT2 features fold flat portability, and swiveling side platforms. Each of the 3 tabletops measures: 19.5" x 19.5". Together, they measure 66.25"(w) x 25"(d) when sides are fully angled.

MODEL	DIMENSIONS	WEIGHT
ATT	59.25" X 35.25" X 20"	44 LBS.
ATT2	60" X 35.25" X 19.5"	35 LBS.

NEXUS 6" X 6" (15CM X 15CM) SQUARE TRUSS SYSTEM

Save Time and Labor While Achieving a Professional Show Setup. With the Nexus Truss System, create professional grade exhibition and show setups with minimal effort. The Odyssey Nexus Truss System is Easy to Setup. Absolutely no tools are required for truss-to-truss assembly. With its compact and lightweight properties, you don't need heavy machinery for transport and handling. An appealing tradeshow set-up can be done easily with only one person. The Odyssey Nexus Truss System is durable. Designed to be disassembled and reused show after show. Don't be fooled by the composite shell. On the inside, the Odyssey Truss System is made with aluminum steel composite construction. That makes it durable strong enough to embellish your setup with banners, lights, and even monitors.

NEXUS BLACK 8" X 8" (20CM X 20CM) FOLDING SQUARE TRUSS SYSTEM

For DJs who want a simple-to-setup truss structure that looks awesome, Odyssey's Patented Nexus Folding Truss is the perfect solution. Like its predecessor, the patented Nexus Folding Truss is versatile and flexible. The modular design can accommodate almost any exhibition or display size that is imaginable. Lightweight and durable, a show display can be setup efficiently and easily. When no tools are required in doing truss-to-truss assembly, any adult can assemble any simple to complex display configuration quickly. The Patented Nexus Folding Truss can do more! Being able to fold flat extends the advantage of the patented Nexus Folding Truss. Allowing even easier effort and efficiency in transport from show to show. Not only does it reduce the need for storage space, it also reduces the shipping cost. The Patented Nexus Folding Truss is the ideal solution in minimizing labor and cost.

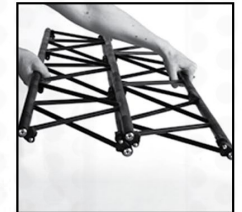

Key Benefits of the Patented Nexus Folding Truss:

- Folds flat reducing storage and shipping cost
- Durable, lightweight, aluminum steel composite construction
- Do-It-Yourself show display setup from start to finish
- 9 available truss lengths
- No tools required for truss-to-truss assembly
- Various display accessories available

LATS A1 (OPTIONAL)

LTS1

LTS1A

New to our existing line up of speaker and lighting stands is the LTS1A articulating tripod. Articulating leg stands are the perfect solution for setting up your speaker or lighting rig on uneven surfaces such as steps or sloped surfaces. One leg on each stand is adjustable so you can easily set up your rig without the fear of tipping over. Also available in the all new Luxe™ Stand Series' white finish (LTS1AWHT) and in Pro Crank-up Stand versions in both colors (LTS1APRO & LTS1APROWHT).

OPTIONAL ACCESSORIES

LATS A1

LATS A1WHT

LATS A2

LATS A2WHT

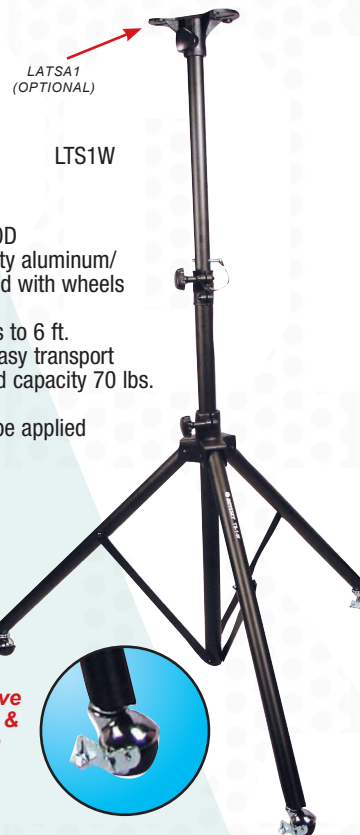

LATS A3

- 1-1/2" in speaker mounting adapters
- Mount to the bottom of a speaker

LATS A1 and Luxe series white LATS A1WHT are used as a mounting platform for speakers, followspot, and select moving head fixtures. This mounting adapter easily slides down on top of most tripod stands. Included are 4 wood screws. 1-3/8" diameter adapter.

Interior Dims: 65" x 9" x 11"

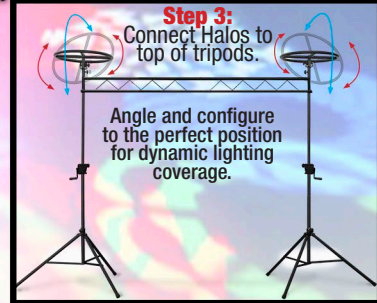

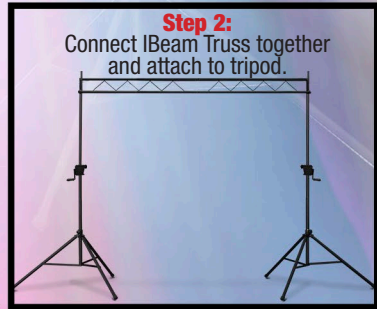

It's time to upgrade your mobile lighting setup with the **NEW** Innovative **ODYSSEY® Halo™ DJ Truss System** **No Time, No Tools, No worries.** ***Sets up in 2 minutes. No kidding!**

*Set up time based only on the required time allotted towards building the Halo DJ Truss system. This does not include any lighting or wiring setup. Individual time may vary. Tighten all knobs to safely secure your Halo™ DJ Truss system.

Lights are for illustration purposes only. Lights are not included.

Patent Pending

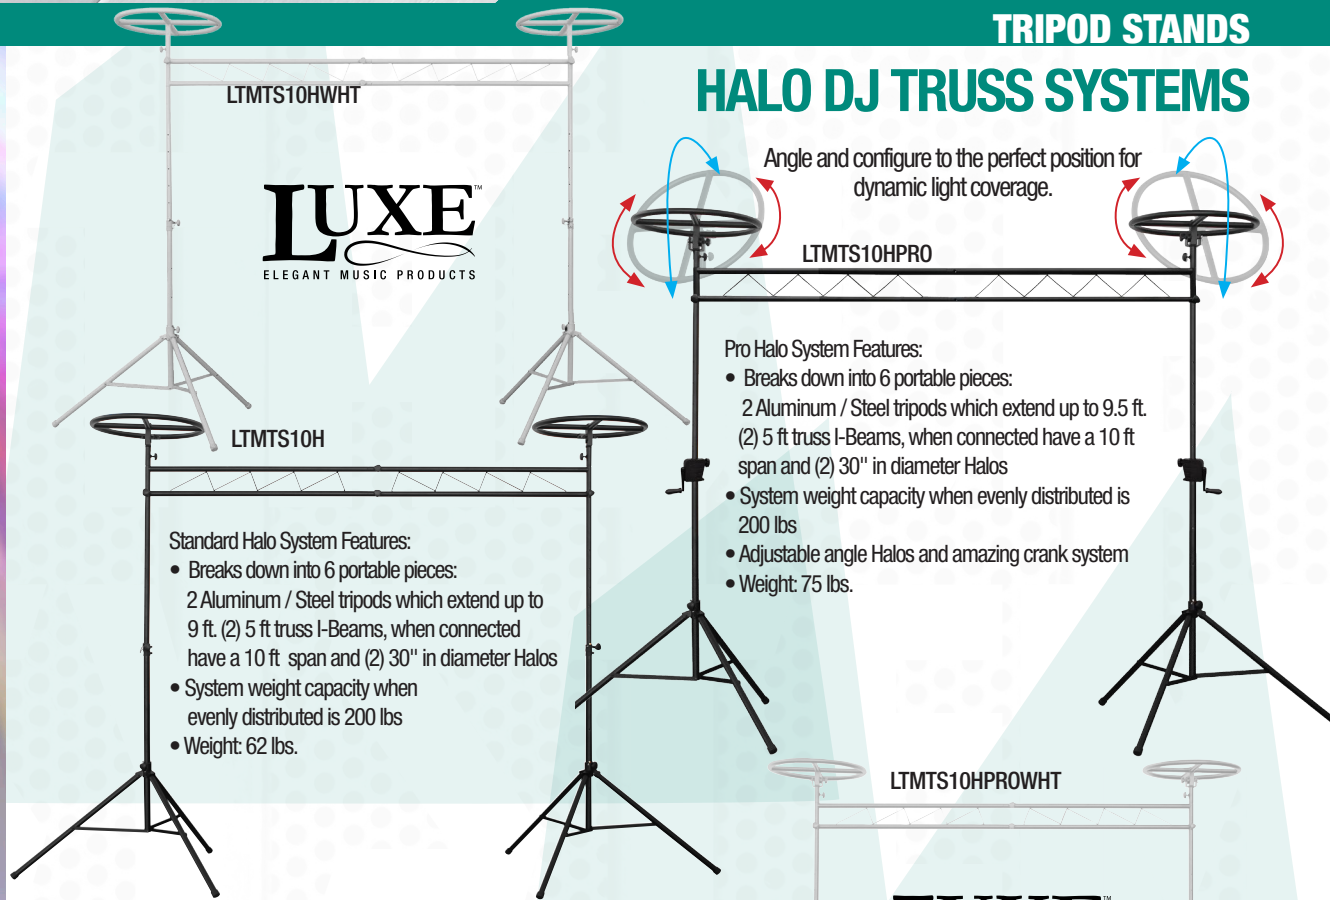

Each systems' Halo' ring structure allows you to create 360 degree lighting arrangements on each end of the 10' I-beam span for a wide range of lighting configuration possibilities that are impossible with just the standard mobile lighting truss setup.

Now if you really want to get 'cranking', the PRO versions crank system can easily raise that lighting rig up to 10 feet high off the ground.

Want more creativity? The PRO versions' Halo Rings also have adjustable joints that can tilt to any angle, even full vertical, adding an extraordinary dimension to your lighting design.

Load capacity is an incredible 300 lbs. evenly distributed. Portability, high stability, and increased setup creativity is what you get with our Halo lighting systems!

ODY SHIELDS

"A FINISHING TOUCH OF ELEGANCE"

Are you looking for a way to add a finishing touch of elegance to your uplighting packages? Well the Solution is here with our new UpLighting Décor Ody Shields from Odyssey Innovative Designs.

Ody Shields are Uplighting covers designed not only to conceal your Uplight fixtures while in use but also to give them limited protection from being stepped on or kicked. Ody Shields are made of 1/8" white acrylic material that is light weight, durable, easy to transport and most important, transparent so that when in use you will get a constant beam of light from floor to ceiling without the dark gap you get from other shields.

Many event facilities now require all up-lighting fixtures to be covered up with some type of barrier so that they don't become trip hazards, or take away the elegant look from other décor in the room. Our standard shields come in two sizes, 15" and 20".

The 15" Shield is ideal for battery powered led fixtures, and will accommodate both 56 and 64 LED fixtures. The 20" Shield will work great with virtually any round shaped led lighting fixture or even a smaller footprint par can; being that it's taller it will also conceal the Edison connector and wall receptacle so that there is no visible cords. Also as an option the Ody Shields thermo formed panels can be custom trimmed to a desired height.

VSS™ MOBILE VIDEO SCREEN SYSTEMS

Whether your next gig is big or small, you want your video show to be as dramatic and memorable as possible. The best way to enhance the “total experience” of your video display is with our Mobile VSSL™ video screen system. The VSSL™ systems boasts maximum image quality and luminosity indoors or outdoors and features front or rear projection. At the maximum stretched point the viewing field is 88” x 60”. At the minimum stretched point the viewing field is 80” x 52”.

- Max Height is 14'
- Min Height is 6'
- Max Width 10'5"
- Min Width is 8'
- Includes Tripod Frame, Video Screen, Lower Bar Tripod attachment & Carrying Bag
- 55 lbs. with bag
- Video screen (LTMVSCREEN3) & dual tripod frame also sold separately

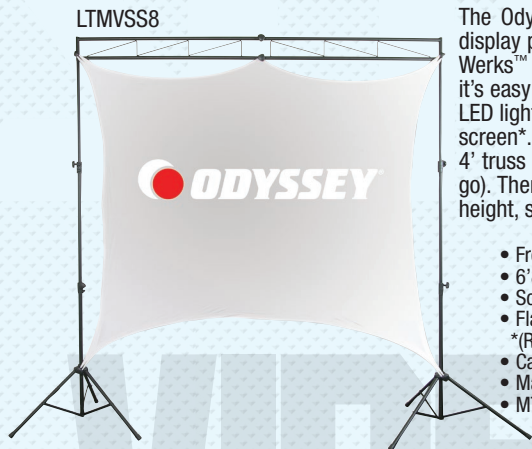

The entire Mobile VSSL™ system, including the screen, fits into its durable heavy-duty bag, ready for travel or storage.

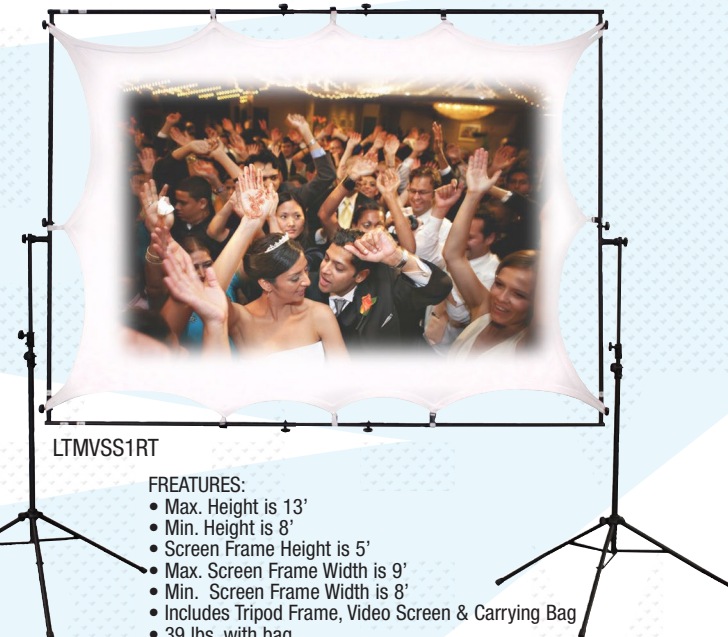

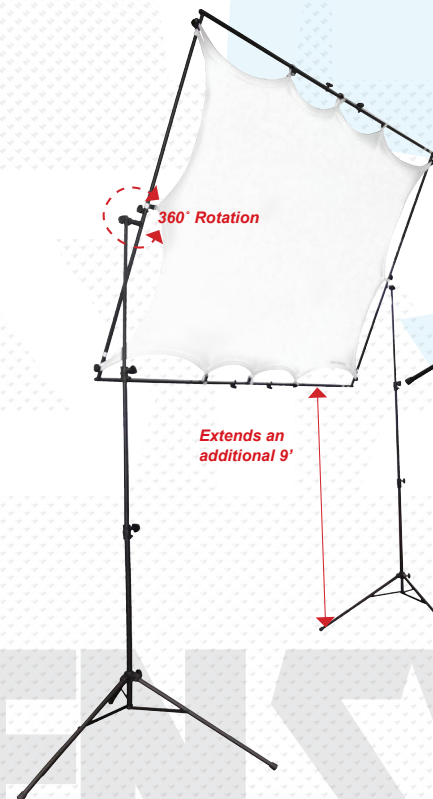

The Odyssey VSS-8 Mobile Video Screen System is a convenient projection screen display package consisting of one MTS8 Mobile Truss System (LTMTS8) and one Scrim Werks™ 7' x 5' Projection Stretch Screen (LTMVSCREEN3). Made extra compact & light, it's easy on your back and to store, but still strong and high enough for those essential LED lighting effects for your mobile gig as well as the LTMVSCREEN3 projection stretch screen*. So simple to set up, it can be done in less than 3 minutes. Just attach the two 4' truss sections together and place on top of the tripods (tighten tension knobs as you go). Then attach the screen loops to the frame knobs, raise the bars to the maximum height, secure, and you're done!

- Front and Rear Projection Screen
- 6'8" x 5' Viewing Field
- Screen made of High Quality Lycra Spandex
- Flame Retardant Treated Screen
- * (Retardant must be retreated after washing or dry cleaning)
- Carry Pouch and Attachment Straps For Screen Included
- Max Height is 8'7", Width 8'
- MTS8 Frame Can Handle an Evenly Spread Load of 150 lbs.

VSS-1RT RAISE AND TILT MOBILE VIDEO SCREEN SYSTEM

The VSS-1RT™ system's unique screen frame “Raise and Tilt” feature allows for extra setup diversity and also features front or rear projection. At the maximum stretched point the viewing field is 88” x 60”. At the minimum stretched point the viewing field is 84” x 63”.

The entire Mobile VSS-1RT™ system, including the screen, fits into its durable heavy-duty bag, ready for travel or storage.

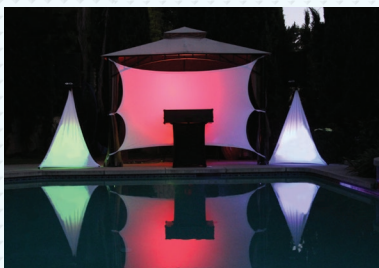

VIDEO PROJECTION STRETCH SCREENS

Odyssey Scrim Werks™ projection screens can be used for a wide variety of applications from unique outdoor shading decor configurations attached onto truss or other temporary structures to indoor theatrical or banquet backdrops and projection. Each has sewn in loop points to secure and stretch into various shapes and sizes. Use in conjunction with other Scrim Werks™ products along with colored light washes or small silhouette projections to achieve that extra ambiance to your scrim design.* Carry pouch and attachment straps included.

**LIGHT COLUMNS™
PATENT PENDING**

Create clean and dramatic lighting effects with Odyssey's Scrim Werks™ Light Columns™. With 1'-10' high available sizes, they're perfect for enhancing event décor without using a heavy, bulky, and expensive square truss setup. Extremely lightweight and sturdy, with Scrim Werks™ Light Columns storage and transport space is not an issue. Each comes with 4 individual aluminum tubes that attach to a top and bottom aluminum plate with a scrim sleeve matching in length included. Easy to setup and tear down, each column stands strong, erect to impress, and secure to place a moving head light on top, yet conveniently compact when in storage.

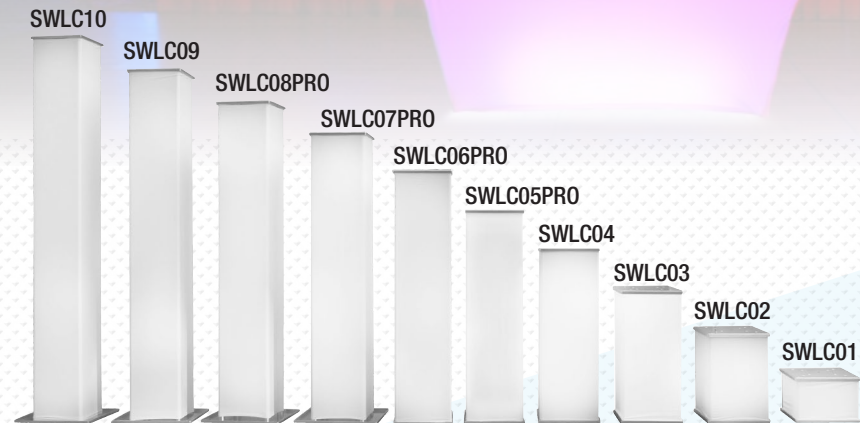

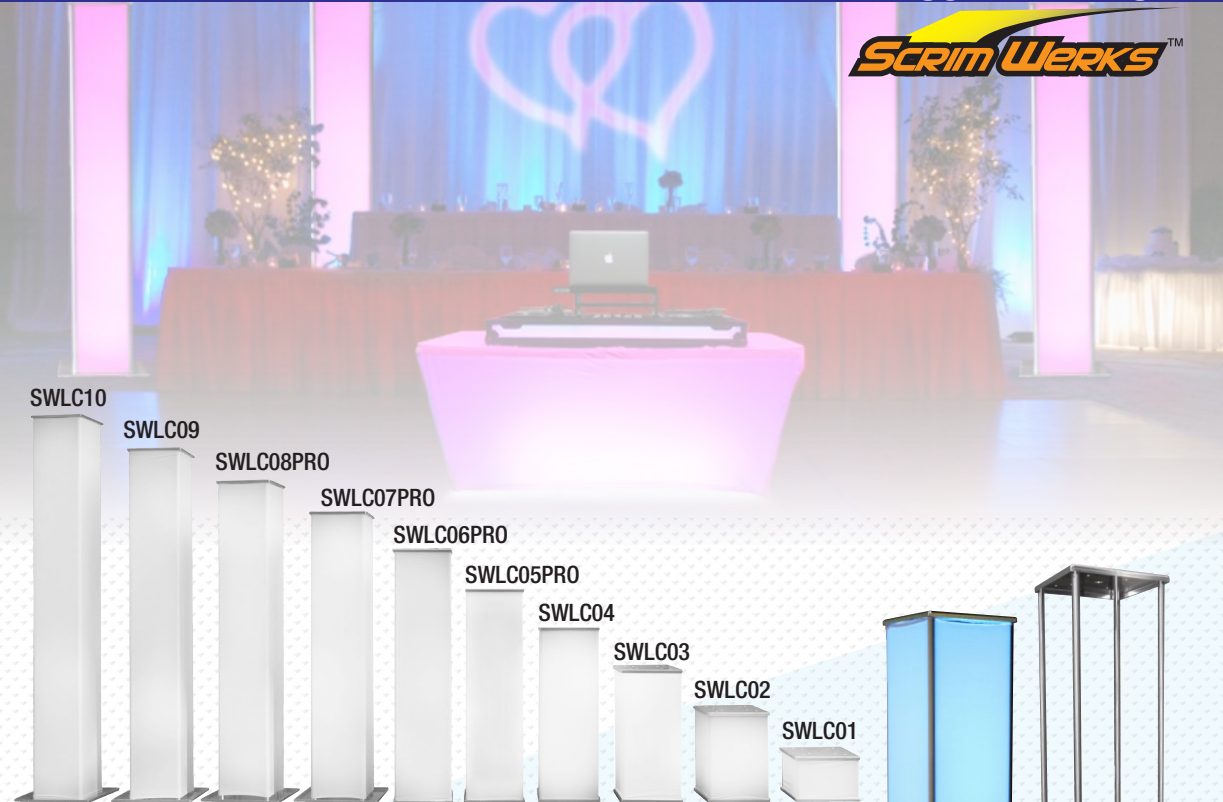

Lighting not included.

SCRIM WERKS™ PRO DJ FACADES

Today's special event DJs continue to step-up their game with more elaborate clean setups. Odyssey Scrim Werks™ DJ facades are ideal accessories for these entertainers. Each consists of four detachable pin-hinged sections consisting of a super lightweight, powder coated aluminum frame. Have a larger than usual setup? You can combine the sections from multiple sets of the same height to create a wider facade if needed. The black dual layer scrim faces are fire retardant treated and can be used in conjunction with lighting effects to create that perfect look for any momentous occasion. After the gig, if you find a stain on the scrim from an accidental drink spill or other mishap, no problem. All that is required is a screw driver to simply remove the scrim for cleaning.

ALL BLACK & ALL WHITE PRO DJ FACADES

You'll love our Scrim Werks™ lineup of All Black and All White scrim facades. We made the aluminum frame trim and scrim colors match for a super slick all black and a super sophisticated all white look. All scrim facades come complete with 4 easy to put together lightweight, aluminum framed panels; two center and one on each side. Assembly is quick and simple with our unique removable L-pin system. No special event DJ rig should be without a Scrim Werks™ DJ Façade from Odyssey.

DECOR PANELS

Odyssey's Decor Panels are a great way to help you create attractive and innovative display applications for DJ booth or stage backdrops. With various available shapes and sizes your possibilities are endless. For a complete effect we recommend that panels are used in conjunction with LED lighting or gobo projection lighting.

TRIPOD AND TRIANGULAR SCRIMS

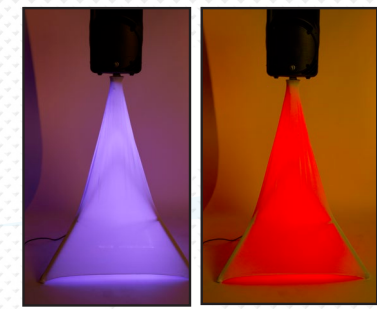

The Odyssey Scim Werks™ tripod and triangular scrims are designed to have a variety of functional and decorative uses. For mobile DJ set-ups, use them on your speaker lighting stands for a cleaner and more professional look. They can also be used for a wide variety of applications such as temporary outdoor shading designs with multiple pieces or in conjunction with other Scrim Werks™ screen products. Other popular applications include indoor designs for theatrical or banquet backdrops with small silhouette projections or color wash lighting effects.*

**(Use all necessary precautions when using with heat and electrical related devices.)*

- FEATURES:**
- Made of High Quality Lycra Spandex

PORTABLE BENCHES

BNCHWHT

The unique BNCH portable large bench is a convenient and comfortable accessory for photo booth setups as well as other applicable special events and gigs. Use as a piano bench, prop, or as decorative furniture at a trade show. The legs are completely removable for compact transport and storage. When assembled it's as sturdy as rock with its aluminum/steel frame. Available in two colors, black or white.

BNCH

DIMS: 41"W x 21.5"H x 13.5"D
WEIGHT: 26 LBS

DJCHAIRWHT

LUXE
ELEGANT MUSIC PRODUCTS

Another Odyssey product you can use at every gig. The adjustable DJ Chair allows you to sit back at a comfortable height while reducing fatigue and stress on your back and legs during those long gigs. The 5 adjustment levels, from 19" to 33", make you look cool without the appearance of sitting back on the job. Keep the seat up high so can lean on it while mixing or bring it down low and hide behind your rig in comfort. Holds up to 300 lbs. on its 12" circular foam padded seat. Features a removable back rest.

DIMS: 18" x 39" x 47.5" x 17"
WEIGHT: 35 LBS

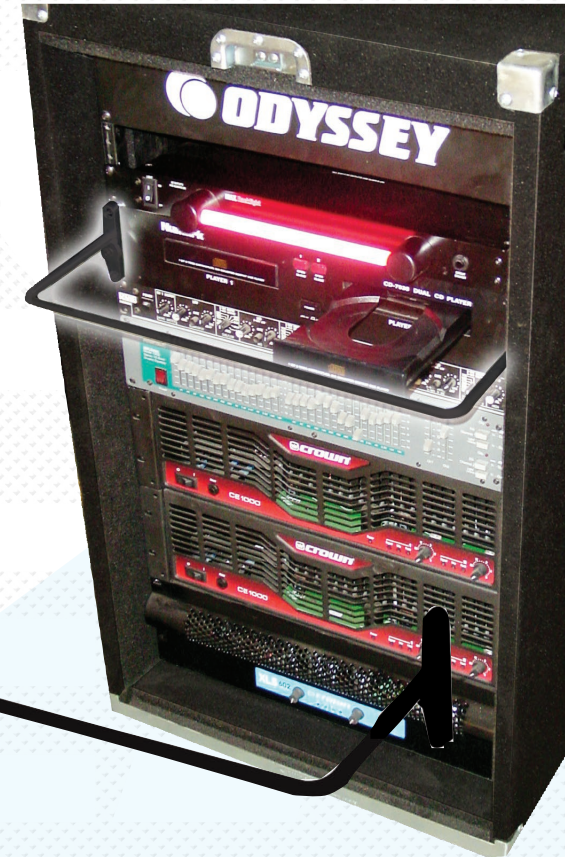

DJCHAIR

19" DETACHABLE CABLE MANAGEMENT/ACCESSORY RACK BAR

ACG19

Easily detaches from rack rail attachments

The ACG19 is an ingenious multipurpose detachable rack bar accessory. Great as a cable management lacing bar, it can also be used for hanging your headphones or other loose hanging DJ essentials.

Still have a rack mount dual CD player in your DJ arsenal? The ACG19 is a perfect CD Tray Guard. It works for all 19" dual rack mount CD players and will protect delicate open CD drawers from accidental damage during your gigs.

Features and Specs:

- Steel Construction
- Sleek Black Powder Coated Finish
- Convenient Easy Detachable and Attachable Locking Bar
- Width: 19"
- Depth: 6.5"
- Fits Standard Racks With 10/32" Pre-tapped Rack Screw Holes

RACK ACCESSORIES

AVAILABLE IN FOUR DIFFERENT SIZES. Solid steel black panels are great for covering empty rack space. Also useful for keeping long cables or other loose items inside the rack during transport.

This raised panel deters unauthorized persons from adjusting the covered gear. Large perforations allow visual confirmation of settings without removal while also allowing air flow.
